Our mission is to improve skin health.
Dedicated to this purpose, we make one simple promise —
provide **advanced skincare backed by science.**

ADVANCED SKINCARE —
PREVENTION, PROTECTION, AND CORRECTION

To maintain and improve skin health, an effective skincare regimen must contain three fundamental elements — prevention, protection, and correction. Our line of advanced skincare products is designed to prevent future damage, protect healthy skin, and correct previous damage. At SkinCeuticals, achieving results means not only restoring youthful, radiant skin — it means preventing serious skin conditions.

Founded in 1997, SkinCeuticals discovers, develops, and delivers innovative dermatology products that improve the overall health and appearance of the skin. We use pure, pharmaceutical-grade ingredients at optimal concentrations with proven scientific results to elegantly craft functional products. Our integrated skincare program works as a complete system for long-lasting comprehensive results.

Our dedication to developing advanced skincare backed by science has earned us a strong reputation with the medical community worldwide. Dermatologists, plastic surgeons, medi-spas, and other skincare professionals trust SkinCeuticals to promote skin health — not trends.

PRODUCT DEVELOPMENT

At SkinCeuticals the products start with the science. SkinCeuticals helped pioneer the advent of cosmeceuticals and has continued to lead the industry as one of the first companies to provide scientific evidence to support product benefits.

Today, SkinCeuticals has formed networks with top scientists from the fields of cellular and molecular biology, chemistry, biophysics, and medicine to further our understanding of the processes of skin aging, photoaging, and other individual skin conditions. Over the years, our research team has earned numerous federal and state grants to help further the pursuit of technologies to deepen our knowledge of the skin and skin health.

Through research, innovation, education, and media relations, SkinCeuticals constantly strives to promote and improve skin health.

1997

INNOVATION & ANTIOXIDANTS

SkinCeuticals is founded based on academic research by Dr. Sheldon Pinnell. Dr. Pinnell established and patented the first formulation parameters required for vitamin C absorption and efficacy in skin. He and the SkinCeuticals research team helped pioneer the advent of cosmeceuticals with the original topical vitamin C formula. These parameters came to be known as the Duke parameters, guiding new antioxidant development.

2005

C E FERULIC®

SkinCeuticals adds ferulic acid to vitamins C and E, resulting in unmatched environmental protection and becoming the new standard in antioxidant technology.

2008

PHLORETIN CF®

After extensive research, SkinCeuticals identifies a powerful molecule, phloretin, which works synergistically with vitamin C and ferulic acid to provide broad-range antioxidant protection.

2011

PHLORETIN CF® GEL & AOX+® EYE GEL

SkinCeuticals develops a serum-in-a-gel technology, revolutionizing the texture of SkinCeuticals topical antioxidants while maintaining the integrity and efficacy of the original serum formula.

2014

RESVERATROL B E

SkinCeuticals introduces its first antioxidant night concentrate to help repair and prevent accumulated damage by boosting skin's own antioxidant defense system.

ANTIOXIDANT AUTHORITY

One of the most essential and well studied antioxidants is vitamin C.

Not all vitamin C is the same.

The patented Duke parameters ensure effective delivery of vitamin C in skin:

Antioxidants neutralize environmental assaults that can cause fine lines, wrinkles, discolorations, and serious skin conditions.

Synergistic antioxidant combinations can provide up to 8x skin's natural environmental protection.

SKIN TYPES

Normal Skin

Normal skin has an ideal balance of oil and hydration levels. Therefore skin is neither greasy nor dry. Most SkinCeuticals products are appropriate for use on this skin type.

Oily Skin

Includes conditions associated with excess oils and congested pores. Products recommended for this skin type help minimize oiliness and congestion as they protect skin and help prevent further damage.

Dry Skin

Includes conditions associated with scaling, itching, flaking, and burning, and is often an inherited skin condition. Products recommended for this skin type help counter moisture loss, improve elasticity, and rejuvenate dull skin.

Combination Skin

Includes combinations of oily and dry skin; product recommendations may vary depending on where skin fits within this range.

Sensitive Skin

Includes conditions such as rosacea, seborrheic dermatitis, and atopy; sensitivity can be inherited or acquired. Sensitive skin exhibits inflammatory responses to various triggers such as allergens, preservatives, or fragrances. Suggested products will help soothe skin.

SKIN CONDITIONS

Aging

Skin aging is a degenerative process caused by intrinsic, chronological aging, and extrinsic, environmental aging. Both intrinsic and extrinsic aging contribute to problems in the dermis and the epidermis leading to slower cell turnover and breakdown of collagen and elastin fibers. Visible signs of aging include a loss of skin’s radiance and firmness, as well as wrinkles, laxity, and uneven pigmentation.

Acne

Acne is caused by excess sebum production and inefficient desquamation. Typical acne-related lesions include comedones, papules, pustules, and nodes or cysts. While the cause of acne is unknown, hormones and stress are contributing factors.

Hyperpigmentation

Excess and uneven distribution of melanin, the natural pigment that gives color to skin, can be exacerbated due to UV exposure, hormonal fluctuations, or trauma to the skin, causing uneven skin tone and brown spots.

Rosacea

Rosacea is a common skin disorder characterized by flare-ups of redness and flushing. Over time redness can become more constant and bumps and pimples may develop. This condition transcends skin types.

Dehydrated

Dehydration occurs due to a lack of moisture in the skin. Indications of dehydrated skin can include itching, tight, and dull-looking skin. Once the skin becomes dehydrated it can no longer carry out its barrier role.

Sensitized

Sensitivity is common after procedures such as microdermabrasion, laser resurfacing, or peels, as well as in perimenopausal or mature skin. Skin sensitivity can be associated with dehydrated, traumatized, aging, or delicate skin.

CLEANSE & TONE

Formulated to meet the exacting standards of skincare professionals, SkinCeuticals cleansers and toners include a variety of active ingredients such as hydroxy acids, botanical extracts, and cleansing agents to lift impurities and oils, gently exfoliate dead skin cells, and balance pH levels. Our cleansing and toning products leave the skin feeling fresh and clean without increased dryness or oiliness.

LHA CLEANSING GEL

Designed for aging skin, LHA Cleansing Gel combines potent cleansing agents with LHA, glycolic acid, and salicylic acid to decongest pores, smooth irregularities, and brighten skin. Additionally, the triple combination of exfoliating agents works in concert with LHA Solution and Blemish + Age Defense to prime skin for clinical procedures and professional treatments by initiating the exfoliation process to enhance penetration of peeling agents.

BENEFITS

- LHA provides precise and even exfoliation to unclog pores while diminishing surface indicators of age including discolorations, fine lines, wrinkles, and rough texture
- Glycolic acid accelerates the natural cell renewal process to improve skin tone and texture
- Salicylic acid unclogs pores and removes dirt, oil, and other debris that lead to breakouts
- Gentle cleansing agents remove excess oils and makeup
- Ideal for oily and combination skin types

CLARIFYING CLEANSER

Specifically formulated for acne-prone skin, SkinCeuticals Clarifying Cleanser combines salicylic acid, an FDA approved acne treatment, with the exfoliating powers of glycolic and mandelic acids to unclog pores and help improve the appearance of damaged skin. Along with these powerful alpha and beta hydroxy acid ingredients, the cleanser also includes smoothly rounded microbeads to gently slough off dead skin cells and cellular debris. Used in conjunction with SkinCeuticals Blemish + Age Defense, this cleanser treats existing whiteheads, blackheads, and other acne-related blemishes while helping to prevent future acne breakouts.

BENEFITS

- 2% salicylic acid clears acne blemishes
- Smooth polyethylene beads remove loosened skin cells without lacerating skin
- Mild soaps in a creamy base ensure effective cleansing without over drying or irritating the skin
- Helps break up the cohesion of keratinized skin cells to speed up the natural exfoliation process and allow fresh, new skin to appear
- Ideal for oily and acneic skin types

MICRO-EXFOLIATING SCRUB

Designed for congested and rough skin, this mild exfoliating gel combines natural microbeads with gentle cleansing and hydrating agents to thoroughly cleanse pores and promote healthy cell renewal without damaging or drying skin. Physical-exfoliation earth microbeads are formulated at optimized density to provide intense and even exfoliation without causing lacerations. Additionally, a high purity of aloe softens polished skin. Designed for all skin types, this scrub is safe for use on face and body.

BENEFITS

- Natural microbeads gently exfoliate and polish away dead surface cells
- Glycerin and aloe soften, moisturize, and smooth skin
- Ideal for all skin types

SIMPLY CLEAN

Ideal for combination or oily skin, this skin-refining gel cleanser combines an exfoliating hydroxy acid blend with botanical extracts to gently remove impurities, excess oils, and makeup, and prepare skin for epidermal peeling. Also contains botanical extracts of chamomile and aloe to help soothe skin.

BENEFITS

- Gently exfoliates dead skin cells
- Clarifies the skin and smoothes out rough texture
- Removes excess surface oils and makeup
- Ideal for all skin types

PURIFYING CLEANSER

Suitable for most skin types, Purifying Cleanser removes resistant surface debris and impurities to leave skin fresh and conditioned. The addition of glycolic acid provides gentle exfoliation to improve skin tone and texture and prepare skin for epidermal peeling, while glycerin provides added moisturization to condition skin. This light gel is designed with a pH close to that of skin to thoroughly cleanse without stripping the barrier.

BENEFITS

- Mild foaming and cleansing action dissolves dirt and oil particles on skin's surface
- Glycolic acid gently exfoliates to improve skin tone and texture
- Glycerin softens and smoothes skin
- Ideal for normal, oily, and combination skin types

GENTLE CLEANSER

This mild cream cleanser removes impurities and excess oils without drying the skin. Gentle enough to be used several times daily, this non-irritating cleanser conditions, soothes, and calms sensitive or traumatized skin.

BENEFITS

- Non-irritating
- Contains emollients and skin conditioning ingredients
- Soothing and calming for sensitive or traumatized skin
- Ideal following skin rejuvenating procedures

LHA SOLUTION

Designed for aging skin, LHA Solution is formulated with a triple combination of exfoliating agents to efficiently remove excess residue and surface cells to decongest pores. This low pH combination of LHA, glycolic acid, and salicylic acid also works in concert with LHA Cleansing Gel and Blemish + Age Defense to prime skin for clinical procedures and professional treatments by initiating the exfoliation process to enhance penetration of peeling agents.

BENEFITS

- LHA provides precise and even exfoliation to unclog pores while diminishing surface indicators of age including discolorations, fine lines, wrinkles, and rough texture
- Glycolic acid accelerates the natural cell renewal process to improve skin tone and texture
- Salicylic acid unclogs pores and removes dirt, oil, and other cellular debris
- Ideal for oily and combination skin types

FOAMING CLEANSER

This lightweight cleanser for all skin types deeply cleanses pores, removes excess surface oils, and clears surface impurities, leaving the skin feeling completely refreshed. Mild and non-drying, this fragrance-free cleanser contains gentle, non-allergenic ingredients to prevent irritation. Perfect for removing makeup and preparing the skin for SkinCeuticals treatments.

BENEFITS

- Non-irritating
- Removes excess surface oils without causing dryness
- Perfect for removing makeup
- Ideal for all skin types

CONDITIONING SOLUTION

Designed for normal or combination skin, this exfoliating toner removes excess residue while improving skin tone and texture. Conditioning Solution combines alpha and beta hydroxy acids with denatured alcohol to prime skin and minimize the appearance of pores, while eucalyptus oil leaves skin fresh and purified. Formulated at a low pH, this hydroxy acid toner is ideal for preparing skin for clinical procedures and professional treatments.

BENEFITS

- Freshens and decongests skin while minimizing the appearance of pores
- Optimized delivery system for targeted exfoliation
- Mild formulation with a pH lower than the skin's natural acid mantle safely prepares skin for professional treatments
- Ideal for normal, dry, and combination skin types

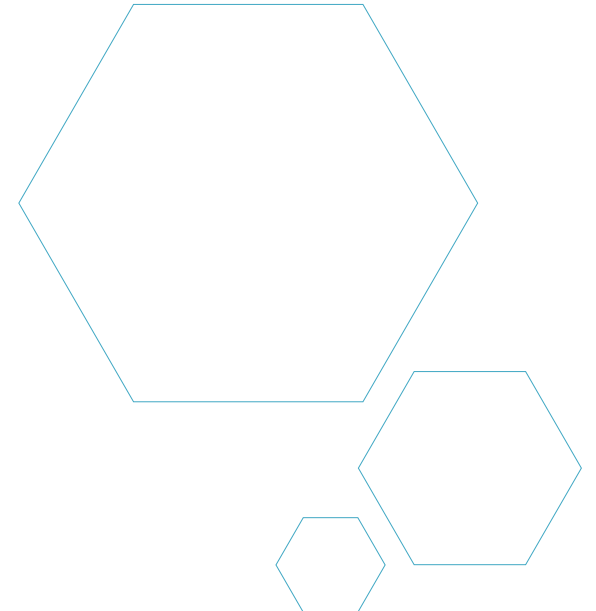

EQUALIZING TONER

Optimal for all skin types, Equalizing Toner helps balance, refresh, and restore the skin's protective pH mantle while removing residue. Mixed hydroxy acids in this fragrance-free and alcohol-free toner help gently exfoliate dead skin cells while botanical extracts such as witch hazel, rosemary, aloe, and chamomile soften, soothe, and tone the skin.

BENEFITS

- Gently exfoliates dead skin cells
- Helps restore the skin's protective pH mantle
- Soothes and tones skin
- Ideal for all skin types

PREVENT

Research shows that aging skin is the result of more than just years on the calendar. Exposure to environmental elements like sunlight, smoke, and air pollution causes premature aging in skin. Not only does this lead to the formation of lines, wrinkles, and discoloration – it can lead to more serious skin conditions. Sunscreens, an essential first line of defense, only block up to 55% of damaging free radicals that cause chemical reactions in skin.* Studies prove antioxidants effectively neutralize chemical reactions generated when skin is exposed to environmental assaults.

A comprehensive skincare program can help prevent environmental damage as well as the onset of more serious skin conditions. When used together, a topical vitamin C antioxidant serum and broad-spectrum sunscreen provide advanced protection against UV-, Infrared Radiation A-, and pollution-induced aging and skin damage. Working in synergy, topical vitamin C serums (using pure l-ascorbic acid) help prevent environmental aggressors, while Resveratrol B E boosts skin's own antioxidant defense system to repair and prevent accumulated damage. These antioxidants help protect from environmental aggressors and promote natural repair from the inside for comprehensive environmental protection and outside correction.

PREVENT

C E FERULIC®

C E Ferulic is a revolutionary antioxidant combination that delivers advanced environmental protection against UVA, UVB, IRA, and pollution by neutralizing free radicals that cause accelerated skin aging. By providing powerful antioxidant protection, C E Ferulic helps prevent premature collagen breakdown and replenish lipids for a diminished appearance of fine lines and wrinkles. Containing 15% pure vitamin C (l-ascorbic acid), 1% vitamin E (alpha-tocopherol), and ferulic acid, this super-antioxidant combination offers 8x skin’s natural environmental protection.

BENEFITS

- Provides advanced environmental protection against damaging free radicals induced by UV, IRA, and pollution
- Increases firmness and reduces the appearance of wrinkles
- Lipid serum texture ideal for dry, cold climates
- Excellent complement to sunscreen for enhanced protection
- Tested suitable for post-laser skin (non-ablative and ablative fractional). Always consult with a physician for individual post-procedure care
- Ideal for normal, dry, and sensitized skin types

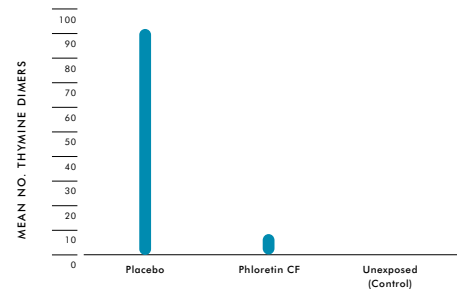

PHLORETIN CF®

Phloretin CF is a powerful antioxidant that combines a patented combination of 2% phloretin, 10% pure vitamin C, and 0.5% ferulic acid. Phloretin CF shields skin from damaging free radicals as it restores a more radiant, even complexion. In addition to broad-range environmental protection, this antioxidant is proven to help correct signs of existing damage by accelerating cellular renewal to diminish discolorations and fine lines while improving skin tone and texture.

BENEFITS

- Provides advanced environmental protection against damaging free radicals induced by UVA, UVB, and pollution
- Retextures skin and evens skin tone for a firmer, brighter complexion
- Diminishes dullness and discolorations
- Light serum texture ideal for humid, hot climates
- Excellent complement to sunscreen for enhanced protection
- Ideal for normal, oily, and combination skin types

REDUCES THYMINE DIMERS CAUSED BY UVA RADIATION
Thymine dimers are damaging mutations in skin that impair essential skin processes.

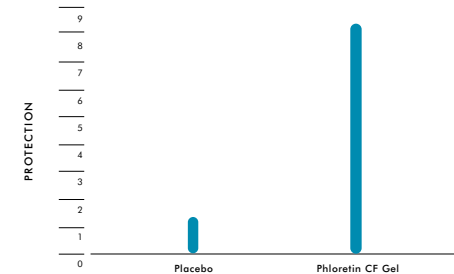

In vivo punch biopsy shows that Phloretin CF® significantly reduces thymine dimer count vs. placebo when exposed to solar-simulated light.

PHLORETIN CF® GEL

This revolutionary serum-in-a-gel offers the same broad-range environmental protection and proven correction as the original Phloretin CF serum in a state-of-the-art gel texture that complies with the strict standards of the Duke antioxidant parameters for vitamin C serums. This synergistic antioxidant combines a patented blend of 2% phloretin, 10% pure vitamin C, and 0.5% ferulic acid for broad-range environmental protection. It is also proven to correct signs of existing damage by accelerating cellular renewal to diminish discolorations and fine lines while improving skin tone and texture.

BENEFITS

- Provides advanced environmental protection against damaging free radicals induced by UVA, UVB, and pollution
- Retextures skin and evens skin tone for a firmer, brighter complexion
- Diminishes dullness and discolorations
- Proven to be well-tolerated by men post-shaving
- Excellent complement to sunscreen for enhanced protection
- Comforting light texture ideal for normal, oily, and combination skin types

PROTECTS AGAINST UV-INDUCED ERYTHEMA
UV-induced erythema is an inflammatory response to UV irradiation indicated by redness.

In vivo, Phloretin CF® Gel provides a high level of protection against UV-induced erythema compared to placebo when exposed to solar-simulated light.

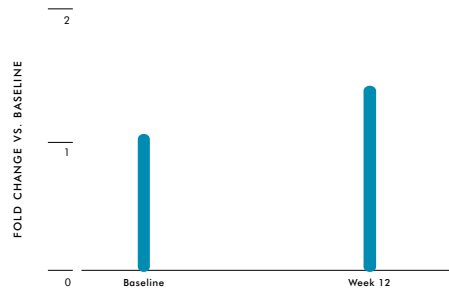

RESVERATROL B E

A first-of-its-kind nighttime antioxidant treatment, Resveratrol B E boosts skin's own antioxidant defense system to help repair and prevent accumulated damage by neutralizing age-accelerating free radicals, promoting skin's natural repair to diminish the signs of accumulated damage, and strengthening functionality to resist new damage. This triple US patent-pending formulation features a maximized concentration of 1% pure resveratrol, 0.5% baicalin, an antioxidant that reduces intracellular inflammation, and 1% vitamin E. This synergistic combination provides enhanced efficacy and statistically significant improvement in radiance and density.

BENEFITS

- Boosts skin's own antioxidant defense system to repair and prevent damage
- Renews skin's radiance and elasticity
- Rebuilds skin firmness and density by 18.9%
- Night serum concentrate
- Ideal for most skin types, including mature skin and retinoid users

COLLAGEN III

PROMOTES ANTI-AGING CORRECTION

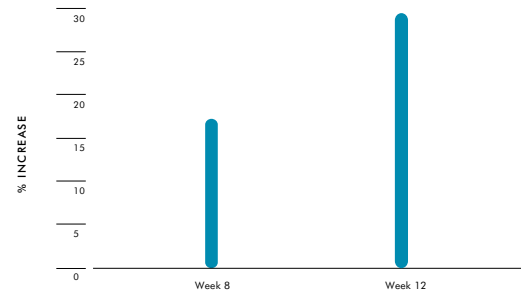

Collagen III is a key constituent of the extracellular matrix and considered a structural protein responsible for density and firmness.

AOX+® EYE GEL

Created especially for the delicate eye area, AOX+ Eye Gel is an innovative serum-in-a-gel formulation that shields skin from environmental damage while correcting the appearance of existing environmental damage and reducing the appearance of puffiness and fatigue. This triple-antioxidant blend featuring phloretin, pure vitamin C, and ferulic acid combats environmental damage and signs of fatigue around the delicate eye area, while ruscus aculeatus increases microcirculation to reduce swelling, and caffeine helps to facilitate the drainage of excess fluid. Together, this synergistic combination protects the delicate eye area from free radical damage and repairs visible signs of aging.

BENEFITS

- Prevents premature signs of aging and corrects existing signs of environmental damage
- Helps reduce the appearance of puffiness and under-eye bags
- Combats signs of fatigue to restore a vibrant, rested appearance
- Ideal for all but sensitive skin types

EFFECT OF AOX+® EYE GEL ON UNDER EYE CIRCULATION

The Laser Doppler Perfusion Imaging System uses a low power laser to scan the surface of skin, to determine microcirculation by the rate of blood flow through capillaries.

C + AHA

This two-in-one antioxidant treatment offers environmental protection and exfoliation in one product to improve visible signs of aging skin inside and out. C + AHA combines the antioxidant power of 15% pure vitamin C to neutralize free radicals with the exfoliating benefits of 10% hydroxy acids to exfoliate and smooth the skin. The dual action reduces the appearance of fine lines and wrinkles as it restores a smoother, more radiant complexion.

BENEFITS

- Protects against environmental damage
- Reduces the appearance of fine lines and wrinkles
- Removes dull, dry surface cells to reveal radiant, younger-looking skin
- Ideal for normal, oily, and combination skin types

SERUM 15 AOX+

Serum 15 neutralizes free radicals, defends against environmental damage, and helps prevent signs of premature aging to restore healthy-looking skin. This lightweight, fast-absorbing serum combines 15% pure vitamin C with ferulic acid to enhance antioxidant performance. Serum 15 reduces the appearance of fine lines and wrinkles and restores healthy-looking skin.

BENEFITS

- Provides advanced environmental protection
- Helps prevent and diminish signs of premature skin aging
- Reduces the appearance of fine lines and wrinkles
- Ideal for all skin types, except very sensitive

SERUM 20 AOX+

Offering the maximum concentration of pure vitamin C that can be absorbed by the skin according to the Duke parameters, Serum 20 restores and protects healthy-looking skin by defending against environmental damage and preventing signs of premature aging. This lightweight, fast-absorbing serum combines 20% pure vitamin C with ferulic acid to enhance antioxidant performance. Serum 20 reduces the appearance of fine lines and wrinkles and restores healthy-looking skin.

BENEFITS

- Provides advanced environmental protection
- Helps prevent and diminish signs of premature skin aging
- Reduces the appearance of fine lines and wrinkles
- Ideal for normal, oily, and combination skin types

SERUM 10 AOX+

Specifically designed for sensitive skin types or conditions, Serum 10 neutralizes free radicals, defends against environmental damage, and helps prevent signs of premature aging. This lightweight, fast-absorbing serum combines 10% pure vitamin C with ferulic acid to enhance antioxidant performance. Serum 10 reduces the appearance of fine lines and wrinkles and restores healthy-looking skin.

BENEFITS

- Provides advanced environmental protection
- Helps prevent and diminish signs of premature skin aging
- Reduces the appearance of fine lines and wrinkles
- Ideal for all skin types, including sensitive skin

CORRECT

Over time, regardless of lifestyle, skin begins to change, and signs of aging may appear. Fine lines, wrinkles, discoloration, and loss of elasticity become more visible. These signs can be the result of collagen breakdown, slower cell turnover, and loss of moisture. Damage is intensified by sun exposure, environmental elements, and smoking. A strong preventive program is critical to prevent further damage from these assaults and to help slow down the aging process. SkinCeuticals corrective products combine reparative, brightening, and exfoliating ingredients to help rehabilitate damaged skin, restoring a healthier and more youthful appearance. This category also includes products formulated specifically for delicate areas such as the eyes and lips.

DESCRIPTION

Visibly diminishes the effects of glycation including creping, thinning skin
Blueberry extract, proxylane, and phytosphingosine

Reduces the appearance of dark circles, puffiness, and crow’s feet
Blueberry extract, proxylane, complex of flavonoids and peptides, and optical diffusers

Lightweight cream to combat the visible effects of collagen breakdown and moisture loss
Soy isoflavones, alpha tocopherol, and silymarin

Rich emollient cream to rehabilitate aging skin and reduce puffiness
Soy isoflavones, alpha tocopherol, silymarin, and marine extract

Firming repair cream to correct early signs of environmental damage
Centella asiatica and ectoin

Firming eye cream to help correct dark circles and early signs of aging
Centella asiatica, ectoin, eye-specific peptides

Refines skin to diminish age spots, uneven tone, fine lines, and wrinkles
0.5% retinol and bisabolol

Refines skin to diminish age spots, uneven tone, fine lines, and wrinkles
1.0% retinol and bisabolol

Reduces stubborn discolorations and prevents reoccurrence
Ellagic acid, hydroxyphenoxy propionic acid, and yeast extract

DESCRIPTION

Prevents the formation of acne, minimizes blemishes, and reduces signs of aging
Dioic, LHA, salicylic, glycolic, and citric acids

Simultaneously exfoliates and replenishes moisture for smooth, radiant skin
25% hydroxyethyl urea/aminosulfonic acid compound, kombuchka, and hyaluronic acid

Reduces redness and flushing, while soothing irritation and discomfort
Palmitoyl tripeptide-8, eperua falcata bark extract, bisabolol, and glycerin

Hydrating botanical serum to diminish discoloration
Arbutin glycoside, kojic acid, and thyme and cucumber extracts

Soothes, calms, and hydrates sensitive, compromised, or problematic skin
Thyme and cucumber extracts, botanical glycosides, uva ursi, and hyaluronic acid

Purifying treatment to decongest pores and remove excess oil
5% mixed hydroxy acids, bentonite and kaolin clays, and titanium dioxide

Helps prevent environmental damage, while smoothing and refining lip surface
Silymarin, vitamin E, glycerin, and hyaluronic acid

Relieves redness and soothes inflammation for sensitive and post-procedure skin
Beta glucan, titrated extract of centella asiatica, sodium palmitoyl proline and nymphaea alba flower extract

Replenishing treatment for compromised skin
Biocellulose fibers and sterilized water

A.G.E. INTERRUPTER

A.G.E. Interrupter is a multi-action formulation for mature skin that delivers three powerful ingredients proven to correct visible signs of aging including wrinkles, loss of elasticity, and a crepey, thinning appearance. One main cause of internal aging is glycation, which occurs when excess glucose molecules bind to collagen and elastin fibers and prompt the formation of advanced glycation end-products (A.G.E.) that lead to severe skin wrinkling. A.G.E. Interrupter helps improve elasticity and firmness caused by advanced glycation end-products. This unique treatment is formulated with an unprecedented 30% concentration of Proxylane™ to help support skin's own GAG synthesis, and restore water and nutrients to skin; blueberry extract to help prevent future wrinkles and laxity; and phytosphingosine to help protect the skin’s barrier to alleviate discomfort associated with dry, aging skin.

BENEFITS

- Improves skin creping and thinning
- Corrects the appearance of fine lines, wrinkles, and rough texture
- Restores water and nutrients to improve skin elasticity
- Restores comfort to dry, aging skin

A.G.E. EYE COMPLEX

A three-dimensional treatment designed exclusively for the delicate eye area, A.G.E. Eye Complex significantly improves the appearance of dark circles, wrinkles, puffiness, and severe signs of aging caused by internal factors such as glycation. This remedy for mature skin contains Proxylane™ to reduce the appearance of wrinkles and crow’s feet while increasing skin elasticity and thickness; a complex of flavonoids and synergistic peptides to strengthen skin and diminish the appearance of dark circles, puffiness, and under-eye bags; blueberry extract to help prevent future wrinkles and crow’s feet; and optical diffusers to immediately boost the radiance of tired, dull eyes.

BENEFITS

- Optical diffusers immediately boost radiance
- Improves dark circles and puffiness
- Reduces the appearance of wrinkles and crow’s feet
- Increases skin elasticity and thickness around the eyes
- Restores comfort to dry, aging skin

FACE CREAM

Specifically formulated to combat the visible effects of collagen breakdown and moisture loss in mature skin. This light, rehabilitative cream provides powerful firming benefits and replenishes moisture with emollients – perfect for skin depleted by the ravages of time. Addresses signs of aging that result from three factors: moisture loss, collagen breakdown, and free radical damage. Face Cream contains targeted botanical ingredients and powerful antioxidants specifically formulated to counter these advanced skincare concerns.

BENEFITS

- Helps correct visible signs of age-related skin damage
- Supports replacement of lipids in dry skin
- Soy isoflavones support natural collagen and hyaluronate production to firm skin
- Soy, vitamin E, silymarin, and green tea extract help protect against free-radical damage
- Formulated for dry, aging skin

EYE BALM

A synergistic combination of highly effective, yet gentle, phytochemicals rehabilitates aging skin around the delicate eye area. This rich, corrective emollient treatment is specifically formulated to counter three prime signs of aging: moisture loss, collagen breakdown, and free radical damage. A marine extract relieves the appearance of under-eye puffiness, while a soothing agent derived from the chamomile plant calms skin.

BENEFITS

- Helps correct age-related damage around the eye area
- Improves the appearance of puffiness and wrinkles around the delicate eye area
- Soy isoflavones support natural collagen and hyaluronate production to firm skin
- Soy, vitamin E, and silymarin help protect against free-radical damage
- Formulated for dry, aging skin

SKIN FIRMING CREAM

This powerful treatment is designed to correct early signs of environmental skin damage. Skin Firming Cream contains ingredients that target environmental aggressors, repairing environmental damage while firming the skin. This first line of defense supports skin’s natural ability to repair damage caused by environmental elements.

BENEFITS

- Centella asiatica helps firm and accelerate repair
- Ectoin protects against stress factors and environmental aggressors
- Supports skin's natural repair
- Enhances hydration
- Suitable for normal, combination, and oily aging skin

EYE CREAM

Powerful ingredients work synergistically in this firming eye treatment to help correct early signs of aging. Eye Cream is formulated with a special complex to combat symptoms such as puffiness, sagging skin, and dark circles — all specific to the delicate eye area. This first line of defense against environmentally-induced skin damage supports skin’s natural ability to repair damage caused by environmental elements.

BENEFITS

- Centella asiatica helps firm and accelerate repair
- Ectoin protects against stress factors and environmental aggressors
- Combats puffiness, sagging skin, and dark circles around the delicate eye area
- Supports skin's natural repair
- Enhances hydration
- Suitable for normal, combination and oily aging skin

RETINOL 0.5

Retinol 0.5 contains 0.5% pure retinol and is enhanced with the latest stabilization and delivery technologies to provide maximum efficacy. Studies show retinol stimulates cellular turnover and supports skin’s own regeneration to diminish the appearance of fine lines, wrinkles, and age spots from both environmental and intrinsic aging. Additionally, retinols help minimize the appearance of pore size, while reducing blemishes associated with problematic skin. Retinol 0.5 is ideal for continued use or for conditioning skin as a prerequisite to SkinCeuticals Retinol 1.0.

BENEFITS

- Helps reduce the appearance of fine lines, age spots, blemishes, and blotchiness
- Bisabolol calms skin and minimizes irritation commonly associated with the use of retinols
- Specialized packaging preserves optimal retinol stability
- Delivery system ensures maximum amount of retinol reaches the target site
- Will not clog pores
- Ideal for most skin types

RETINOL 1.0

Ideal for problematic and photo-damaged skin, Retinol 1.0 contains 1% pure retinol, and should be used for advanced treatment of pre-conditioned skin. Designed for maximum efficacy and stability, SkinCeuticals Retinol 1.0 is formulated with the highest concentration of pure retinol available and enhanced with the latest stabilization and delivery technologies. Studies show retinol stimulates cellular turnover and supports skin’s own regeneration to diminish the appearance of fine lines, wrinkles, and age spots from both environmental and intrinsic aging. Additionally, it helps minimize the appearance of pore size, while reducing blemishes often associated with problematic skin.

BENEFITS

- Helps reduce the appearance of fine lines, age spots, blemishes, and blotchiness
- Bisabolol calms skin and minimizes erythema commonly associated with the use of retinols
- Specialized packaging preserves optimal retinol stability
- Delivery system ensures maximum amount of retinol reaches the target site
- Will not clog pores
- Ideal for most skin types exhibiting signs of photo-damage

ADVANCED PIGMENT CORRECTOR

Advanced Pigment Corrector is a daily multi-layer treatment to reduce stubborn discolorations and prevent reoccurrence. Featuring high-potency proven ingredients, ellagic acid and hydroxyphenoxy propionic acid, this comprehensive approach exfoliates existing spots, inhibits unwanted widespread and localized pigmentation, and boosts skin's own resistance. Advanced Pigment Corrector is a highly effective and safe approach to address hyperpigmentation by boosting skin tone evenness and radiance. It can also be used following cosmetic brightening procedures and prescriptions to help maintain results.

BENEFITS

- Fades stubborn discolorations and enhances resistance to new pigment
- Improves luminosity and skin tone evenness
- Clinically-tested on a multi-ethnic panel
- Paraben-free and fragrance-free
- Alternative to hydroquinone
- Suitable for all skin types, except very sensitive

BLEMISH + AGE DEFENSE

Blemish + Age Defense is a targeted, oil-free serum uniquely designed to treat adult acne and signs of aging. This first-to-market acid complex combines 2% dioic acid with LHA, salicylic, glycolic, and citric acids to reduce excess sebum production, prevent the formation of acne, minimize hyperpigmentation, and reduce the appearance of fine lines and wrinkles.

BENEFITS

- Minimizes excess sebum production and reduces acne causing bacteria, P acnes
- Improves inflammatory and non-inflammatory acne, while displaying exceptional tolerance
- Helps prevent pigmentation caused by inflammation or UV exposure
- Decongests clogged pores
- Diminishes surface indicators of age
- Ideal for oily, combination, and aging skin types

RETEXTURING ACTIVATOR®

This revolutionary resurfacing and replenishing serum surpasses the results of a 20% daily glycolic treatment while simultaneously reinforcing the skin's barrier for healthier, more radiant skin. Retexturing Activator harnesses two polar mechanisms — exfoliation and hydration — to activate skin's natural regenerative desquamation response, visibly diminishing surface lines and transforming skin's fabric into a smoother, softer texture. Using patented technology, this unique treatment is highly effective at promoting cell turnover while optimizing the skin's amino acid supply to reinforce the barrier, resulting in the most efficient epidermal renewal. Potent without harsh side effects, Retexturing Activator is formulated in an efficient, oil-free delivery system.

BENEFITS

- Creates a noticeably smoother, softer surface texture
- Visibly diminishes surface lines and wrinkles
- Dramatically improves skin's radiance
- Suitable for all skin types

REDNESS NEUTRALIZER

Designed for sensitive and rosacea skin types, Redness Neutralizer is a lightweight gel cream that strengthens the skin's protective barrier, reduces redness and flushing by 30%, and alleviates signs of irritation. Formulated with NeuroMed Complex, an innovative combination of biomimetic neuropeptides and natural actives, Redness Neutralizer combats environmental triggers and the key steps of the inflammation cascade responsible for redness and flushing while reducing skin's temperature. Bisabolol, zinc gluconate, and shea butter further soothe and comfort skin. Also suitable for treatment of age-related redness and blotchiness.

BENEFITS

- Strengthens the skin's protective barrier
- Slows the inflammation cascade that causes redness
- Cools skin temperature
- Paraben-free, fragrance-free, silicone-free, dye-free, alcohol-free and non-comedogenic
- Formulated for all rosacea skin types

PHYTO +

This botanical gel for discolorations and unwanted pigmentation combines four active ingredients to diminish discolorations and improve the overall health of the skin. Kojic acid and arbutin, natural alternatives to hydroquinone, work synergistically to help break up pigmentation clusters. Cucumber and thyme are known for their anti-inflammatory and purifying properties to soothe red, irritated skin. Active ingredients are delivered in a hyaluronic acid base as it helps calm and improve the appearance of the skin.

BENEFITS

- Contains kojic acid and arbutin to help reduce and prevent discoloration
- Contains anti-inflammatory cucumber and anti-bacterial thyme to soothe and calm irritated skin
- Natural ingredient alternative to hydroquinone
- Ideal for all skin types

PHYTO CORRECTIVE GEL

Optimal for sensitive or problematic skin, this light, oil-free gel contains botanical extracts with anti-inflammatory and detoxifying properties to help soothe and calm irritated skin. Phyto Corrective Gel contains natural alternatives to hydroquinone and other chemical skin lighteners to help diminish the appearance of discolorations and promote a clear, fresh-looking complexion. Can be used to soothe redness after superficial chemical peels and similar rejuvenation treatments.

BENEFITS

- Contains anti-inflammatory cucumber and detoxifying thyme to soothe and calm irritated skin
- Helps reduce post-treatment redness
- Plant glycosides help minimize discolorations
- Excellent oil-free hydrator for blemish-prone skin
- Optimal for sensitive and problematic skin types

CLARIFYING CLAY MASQUE

This non-drying masque combines kaolin and bentonite, the highest-quality natural earth clays, to decongest pores and lift stubbornly-rooted impurities. Botanicals and minerals are added to help calm the skin, while a 5% hydroxy acid blend gently exfoliates. Weekly use leaves skin feeling healthy and purified.

BENEFITS

- Natural earth clays, kaolin and bentonite, decongest pores, lift impurities, and help remove excess oils
- 5% hydroxy acid blend gently exfoliates dead skin cells
- Titanium dioxide, chamomile, and aloe soothes and calms skin
- Ideal for all skin types

ANTIOXIDANT LIP REPAIR

Designed specifically for damaged and aging lips, two powerful antioxidants, vitamin E and silymarin, form a unique combination antioxidant emollient therapy to help protect against environmental damage. This potent treatment smoothes and rehydrates the lip surface. A complex of humectants and emollients rejuvenate and refine lip tissue, while replenishing actives restore moisture to hydrate and soften dry lips. Can be used daily, nightly, or as needed.

BENEFITS

- Helps protect against environmental damage
- Smoothes and rehydrates lip surface
- Replenishes and refines lip tissue
- Ideal complement for lip-drying side effects from prescription therapies
- Paraben-free, fragrance-free, hygienic dispensing pump
- Suitable for all aging lip skin

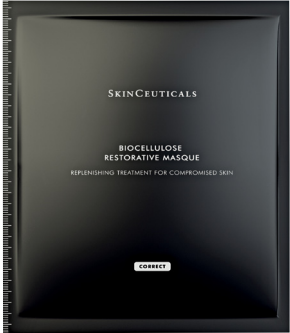

EPIDERMAL REPAIR

Epidermal Repair is specifically formulated for skin compromised by cosmetic procedures ranging from microdermabrasion to laser resurfacing, as well as skin sensitized by retinoid therapy or harsh environmental aggressors. This therapeutic treatment combines beta glucan and centella asiatica to provide a protective veil for traumatized skin while facilitating the accelerated restoration of the skin’s barrier. Epidermal Repair greatly diminishes redness and soothes sensitized skin while the cosmetically elegant texture encourages daily use, especially during the critical healing period following rejuvenating procedures.

BENEFITS

- Accelerates cell renewal and restoration of the skin’s barrier
- Soothes skin and helps reduce signs of inflammation
- Encourages barrier repair without occluding the skin
- Ideal for post-procedure skin

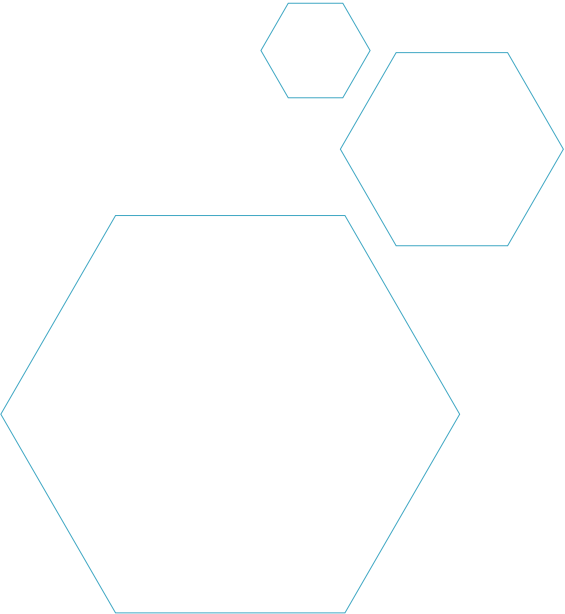

BIOCELLULOSE RESTORATIVE MASQUE

Optimal for sensitive or compromised post-procedure skin, this highly efficient, supple, sterilized masque creates a protective barrier that helps facilitate the recovery process. The unique fibers distribute heat-absorbing water to the barrier, alleviating discomfort and providing immediate relief to heat-related side effects of clinical procedures. Clinically tested on compromised skin after laser procedures and chemical peels, this masque can also be used as a bi-weekly replenishing treatment.

BENEFITS

- Acts as an artificial barrier to alleviate discomfort while allowing for breathability
- Functions as a “heat absorber” to continuously cool and soothe
- Replenishes and provides immediate relief to compromised skin
- Suitable for all skin types

MOISTURIZE

SkinCeuticals moisturizers are carefully formulated with multi-functional ingredients that nourish, protect, and exfoliate as they hydrate and restore elasticity. Our moisturizers are designed to maximize ingredient synergies and provide optimal benefits to the skin.

EMOLLIENCE

Formulated with an exclusive selection of rich botanical extracts and oils, this emollient moisturizer is perfect for use on dry or sensitive skin. Three nutrient-rich sea algae nourish and hydrate the skin, while oils of grape seed, rose hip, and macadamia restore and maintain moisture. Emollient is ideal for high altitudes and cold or dry climates.

BENEFITS

- Nourishes and hydrates the skin
- Restores and maintains moisture
- Absorbs evenly and quickly
- Ideal for high altitudes and cold or dry climates
- Optimal for dry and sensitive skin types

DAILY MOISTURE

This lightweight pore-minimizing moisturizer hydrates, nourishes, and helps reduce the appearance of pore size with an exclusive combination of natural extracts. Glycerin draws water to the skin for non-greasy moisture, while sea algae deliver proteins, amino acids, and essential minerals to the skin. Daily Moisture contains witch hazel, burnet, cinnamon, and ginger to help tighten and reduce the appearance of pores.

BENEFITS

- Nourishes and hydrates skin
- Contains botanical extracts to help reduce visible pore size
- Restores and maintains moisture
- Ideal for normal and oily skin types

RENEW OVERNIGHT DRY

This rich nighttime skin-refining moisturizer contains a fruit acid blend to gently exfoliate the skin for a healthier appearance. Formulated with extracts of aloe, chamomile, evening primrose oil, and comfrey, Renew Overnight Dry helps to restore a radiant complexion and diminish the appearance of fine lines, wrinkles, and other signs of premature aging.

BENEFITS

- 10% fruit acid blend works synergistically to gently exfoliate dead skin cells
- Nourishes and protects skin from dryness
- Helps restore a healthy radiant complexion
- Diminishes the appearance of fine lines, wrinkles, and other signs of premature aging
- Formulated for normal and dry skin types

RENEW OVERNIGHT OILY

This purifying nighttime skin-refining moisturizer diminishes the appearance of fine lines and wrinkles by hydrating and exfoliating the skin. Special extracts help replenish moisture, while a fruit acid blend gently exfoliates to help restore a healthy, radiant complexion. Added orange oil helps clear congested skin.

BENEFITS

- 10% fruit acid blend works synergistically to gently exfoliate dead skin cells
- Helps restore a healthy radiant complexion
- Diminishes the appearance of fine lines, wrinkles, and other signs of premature aging
- Helps clear congested skin
- Ideal for oily and combination skin types

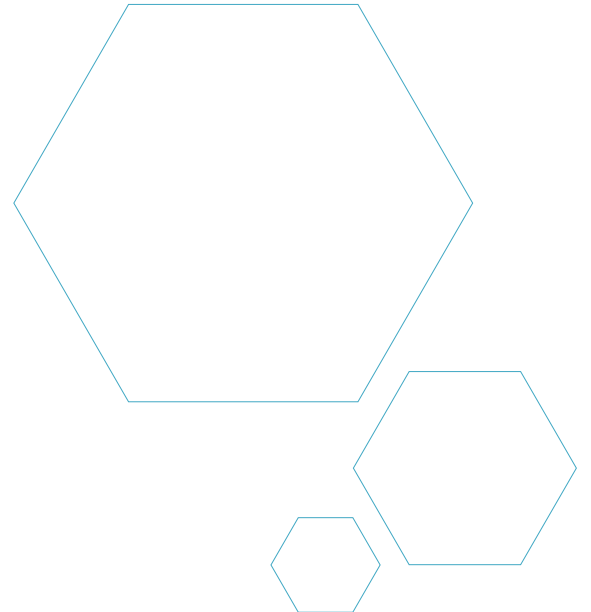

HYDRA BALM

A multi-functional ointment ideal for treating symptoms associated with severely dry skin while improving overall hydration. This soothing balm forms a protective barrier on the skin while providing relief from itching and other irritations. Uniquely formulated to help lock in moisture, this balm maintains skin's hydration levels longer than normal moisturizers. Proven safe to use post-laser (fractional ablative) treatments. Always consult with a physician for individual recommendations.

BENEFITS

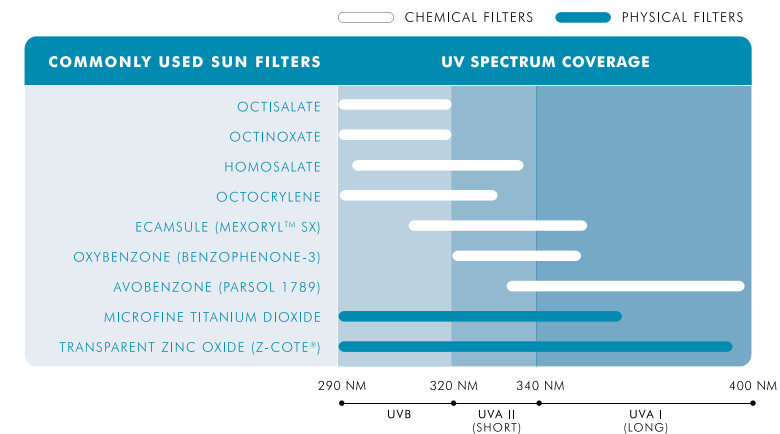

- Proven emollients deeply hydrate skin
- Pharmaceutical-grade petrolatum provides an occlusive barrier over vulnerable skin
- Squalene, rose hip oil, and aloe soothe skin, providing relief to dry and itchy skin
- Ideal for extremely dry and sensitized skin types

PROTECT

SkinCeuticals sunscreens are formulated with combinations of highly effective physical or chemical sunscreens to provide true broad spectrum UVA/UVB protection. By reflecting and absorbing UV rays, SkinCeuticals broad spectrum sunscreens are the skin's first line of defense against photoaging. This advanced suncare line features Z-COTE®, transparent mineral zinc oxide, to physically protect skin from damaging UVA rays proven to be responsible for signs of premature aging.

SkinCeuticals offers a variety of cosmetically elegant sunscreen formulations for various skin types and lifestyles. This includes a full range of 100% mineral sunscreens ideal for daily use and very sensitive, post-procedure skin, as well as chemical sunscreens ideal for sport or extreme conditions.

Z-COTE® is a registered trademark of BASF

DESCRIPTION

All mineral UVA/UVB fluid that provides broad spectrum protection and enhances natural skin tone to boost radiance
Translucent color spheres, zinc oxide (Z-COTE®), titanium dioxide, and artemia salina

All mineral UVA/UVB fluid that provides broad spectrum protection with a transparent, weightless finish *Zinc oxide (Z-COTE®), titanium dioxide, and artemia salina*

All mineral UVA/UVB eye base to enhance skin tone
Zinc oxide (Z-COTE®), titanium dioxide, and translucent color spheres

All mineral UVA/UVB fluid that provides broad spectrum protection for sensitive, very dry, and post-procedure skin
Zinc oxide (Z-COTE®), titanium dioxide, glycerin, and artemia salina

Nourishing UVA/UVB cream
Zinc oxide (Z-COTE®) and octinoxate

Broad spectrum, oxybenzone-free, UVA/UVB lotion for active use
Broad spectrum sunscreen and artemia salina

Moisturizing UVA/UVB cream
Zinc oxide (Z-COTE®) and octinoxate

PHYSICAL FUSION UV DEFENSE SPF 50

Physical Fusion UV Defense SPF 50 provides broad spectrum UVA/UVB protection with all-physical filters, mineral zinc oxide (Z-COTE®), and titanium dioxide. Providing substantial power in an ultra-sheer, mattifying fluid, this sunscreen is also infused with translucent color spheres to enhance natural skin tone. Tested on all ethnicities, this adaptable fluid provides discreet coverage while restoring radiance. Paraben-free and safe for even very sensitive skin, this formula is boosted with artemia salina, a plankton extract which helps build skin’s natural defense and resistance to UV and heat stress.

BENEFITS

- Sheer, weightless texture that enhances natural skin tone and boosts radiance
- Discreet, diffusing coverage that adapts to all complexions
- All-physical, broad spectrum UVA/UVB protection
- Water-resistant (40 minutes), paraben-free, non-comedogenic
- ‘Shake then apply’ action evenly distributes active ingredients for enhanced effectiveness
- Ideal for all skin types, even very sensitive

SHEER PHYSICAL UV DEFENSE SPF 50

Sheer Physical UV Defense provides an ultra-sheer, mattifying effect using all-physical broad spectrum filters. Through an optimized preservation system, minimized chemicals, and an SPF 50 protection level, this paraben-free fluid with a transparent finish provides increased protection in a well-tolerated formula. In addition to trusted broad spectrum, physical filters, transparent mineral zinc oxide (Z-COTE®) and titanium dioxide, this fluid is enhanced with artemia salina, a plankton extract that increases skin defenses and resistance to UV and heat stress. This silky sheer fluid spreads evenly and dries quickly, leaving no residue.

BENEFITS

- Sheer, mattifying texture with a transparent finish
- All-physical, broad spectrum UVA/UVB protection
- ‘Shake then apply’ action evenly distributes active ingredients for enhanced effectiveness
- Paraben-free, non-comedogenic
- Ideal for all skin types, even very sensitive

PHYSICAL EYE UV DEFENSE SPF 50

Physical Eye UV Defense SPF 50 is a daily non-migrating protective base to protect, even, and enhance the delicate skin around the eyes, including the eyelids. While skin around the eye is thinner and more susceptible to UV damage, this area goes largely unprotected and is a first area to exhibit signs of premature aging. Physical Eye UV Defense SPF 50 contains all-physical filters, featuring mineral zinc oxide (Z-COTE®) and titanium dioxide. A sheer coloration enhances radiance and uniformity around the eye, while the non-migrating base acts as a protective canvas for eye makeup.

BENEFITS

- 100% mineral filters, broad spectrum UVA/UVB protection
- Unifies skin tone around the eye
- Enriched with ceramide to nourish the delicate eye area
- Non-migrative base to avoid irritation to the eyes
- Helps to offset discoloration post-injection
- Creates a smooth canvas for optimal eye makeup application
- Ophthalmologist-tested, contact lens compatible

PHYSICAL UV DEFENSE SPF 30

Formulated specifically for post-procedure, sensitive, and very dry skin, Physical UV Defense SPF 30 combines barrier repair and broad spectrum UVA/UVB protection. More advanced than traditional sunscreens, Physical UV Defense is proven to enhance the natural expression of essential proteins responsible for skin's barrier integrity. This all-physical sunscreen, featuring transparent mineral zinc oxide (Z-COTE®) and titanium dioxide, provides all-day hydration, making it ideal for daily use. Artemia salina, a plankton extract, enhances this formulation by stimulating skin's defenses and resistance to UV and heat stress.

BENEFITS

- 100% mineral filters, broad spectrum UVA/UVB protection
- Repairs and improves skin's barrier function
- Supports skin's natural production of key proteins responsible for skin barrier integrity
- Provides all-day hydration in a nourishing, comforting texture
- Paraben-free and fragrance-free
- Ideal for post-procedure use, skin sensitive to traditional sunscreens, or for daily use

Z-COTE® is a registered trademark of BASF.

ULTIMATE UV DEFENSE SPF 30

This broad spectrum sunscreen contains transparent mineral zinc oxide (Z-COTE®) and a chemical filter to help protect against the damaging effects of UVA and UVB rays. Cosmetically elegant and moisturizing, Ultimate UV Defense is ideal for daily use and perfect for high altitudes, where climates can be drying to skin.

BENEFITS

- Broad spectrum UVA/UVB protection with increased UVA protection
- PABA-free and fragrance-free
- Ideal for use in high altitudes
- Optimal for daily use on all skin types

SPORT UV DEFENSE SPF 50

Tested under extreme athletic conditions, including full marathons, this broad spectrum, lightweight, and 80 minute water-resistant sunscreen is proven not to interfere with vigorous workouts, resisting wear-off. This oxybenzone-free formulation is boosted with artemia salina, a plankton extract which helps build skin's natural defense and resistance to UV damage and heat stress.

BENEFITS

- Water-resistant (80 minutes)
- Resists wear off from water, wiping, and rubbing
- Oxybenzone-free broad spectrum protection
- Non-drying, alcohol-free, paraben-free, fragrance-free, and non-comedogenic
- Suitable for most skin types

Z-COTE® is a registered trademark of BASF.

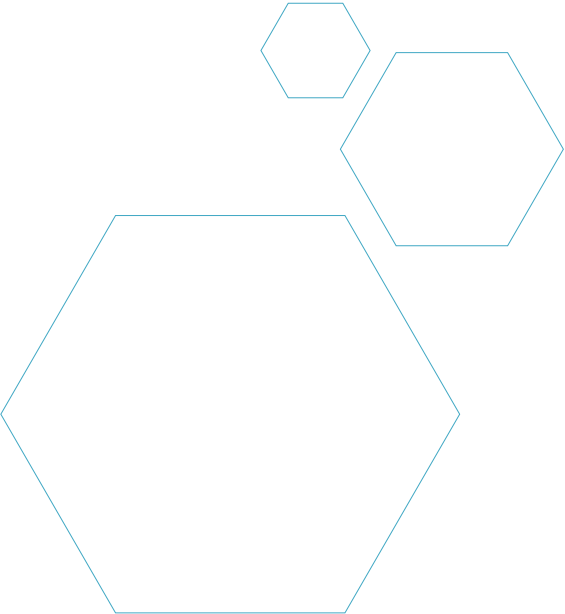

DAILY SUN DEFENSE SPF 20

Optimal for daily use, this broad spectrum sunscreen contains transparent mineral zinc oxide (Z-COTE®) and a chemical filter to help protect against the damaging effects of UVA and UVB rays. This cosmetically elegant and moisturizing sunscreen is ideal for all skin types and can be applied under makeup. Daily Sun Defense does not contain PABA or fragrance.

BENEFITS

- Broad spectrum UVA/UVB protection
- Cosmetically elegant
- PABA-free and fragrance-free
- Recommended for daily use and suitable under makeup
- Ideal for most skin types

SKIN SYSTEMS

SkinCeuticals Skin Systems provide patients with high performance, clinical regimens designed to address special needs such as pre- and post-rejuvenation procedures, hyperpigmentation, acne, and environmental damage.

ADVANCED ANTI-AGING SYSTEM

This clinical regimen is proven to combat and prevent accumulated signs of damage by providing advanced daytime environmental protection and promoting skin’s nightly repair. This regimen counters the effects of glycation and accumulated damage to minimize the appearance of wrinkles, restore skin’s luminosity, and redensify skin.

INCLUDES

- C E FERULIC®
Delivers advanced environmental protection, while reducing fine lines and wrinkles
- A.G.E. INTERRUPTER
Diminishes the visible effects of glycation including creping, thinning skin
- RESVERATROL B E
Helps repair and prevent accumulated damage for improved radiance and elasticity

ADULT ANTI-ACNE SYSTEM

This clinical regimen is proven to correct the signs of skin damage resulting from acne blemishes and aging, including enlarged pores, rough texture, and fine lines. The combination of these products prevents the formation of acne, minimizes unwanted discolorations, and improves fine lines and wrinkles.

INCLUDES

- LHA CLEANSING GEL
Exfoliating gel cleanser decongests pores, smoothes skin texture, and brightens skin
- LHA SOLUTION
Exfoliating toner removes excess residue and surface cells to decongest pores
- BLEMISH + AGE DEFENSE
Prevents and reduces the formation of acne, minimizes blemishes, and reduces signs of aging

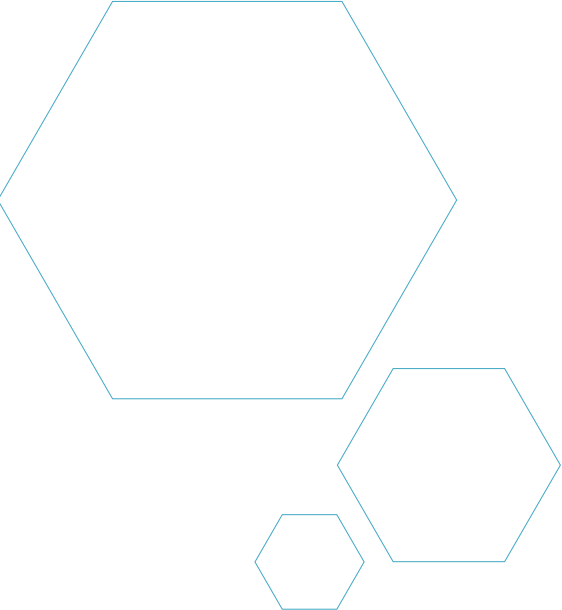

ADVANCED BRIGHTENING SYSTEM

This five-product regimen is clinically proven to significantly fade dark spots, dramatically brighten and even-out skin tone, minimize the appearance of fine lines and wrinkles, and help improve overall skin health.

INCLUDES

- PHLORETIN CF®
Delivers advanced environmental protection, while diminishing discoloration
- RETEXTURING ACTIVATOR
Simultaneously exfoliates and replenishes moisture for smooth, radiant skin
- ADVANCED PIGMENT CORRECTOR
Reduces stubborn discolorations and prevents reoccurrence
- RETINOL 0.5
Refines skin to diminish age spots, uneven tone, fine lines, and wrinkles
- PHYSICAL FUSION UV DEFENSE SPF 50
Provides broad spectrum protection and enhances natural skin tone to boost radiance

NEW

BODY CORRECT

TRANSFORMATION ACTIVATING, PROCEDURE ENHANCING

Specifically created to complement leading in-office body procedures to smooth, tighten, rejuvenate, and brighten, SkinCeuticals Body Correct is a new generation of cutting-edge treatments targeted for high-demand body zones.

Efficient alone, these targeted topical technologies have been clinically tested to complement in-office body procedures, providing incremental benefits through different modalities at different time points for comprehensive results.

DESCRIPTION

Tightens, firms, and lifts loose, sagging skin
Tripeptide, yeast extract, hydrolyzed rice protein

Exfoliates and hydrates simultaneously to resurface dull, rough skin
Hydroxyethyl urea/aminosulfonic acid, niacinamide, hyaluronic acid

Brightens age spots and redensifies skin to minimize crepiness
Hydroxyphenoxy propionic acid, sodium tetrahydrojasmonate, vigna aconitifolia seed extract

BODY TIGHTENING CONCENTRATE

Formulated for gravity-fighting body zones including the abdomen, buttocks, thighs, knees and upper arms, this cooling fluid reinflates and supports skin’s structure resulting in a smooth, taut surface. A combination of tripeptide, yeast extract, and hydrolyzed rice protein helps fill skin with volume while firming skin from within to tighten and lift loose, sagging areas. Proven safe and complementary to radiofrequency procedures.

BENEFITS

- Tightens and lifts loose, sagging skin
- Firms and smoothes skin
- Improves appearance and resilience of gravity-fighting zones
- Tested safe for use with radiofrequency tightening procedures

BODY RETEXTURING TREATMENT

Formulated for dull, rough body skin, especially arms, legs, knees, and elbows, Body Retexturing Treatment harnesses two polar mechanisms – exfoliation and hydration – to transform skin into a smoother, softer texture. Hydroxyethyl urea/aminosulfonic acid compound normalizes cell turnover and restores skin’s barrier, resulting in the most efficient epidermal renewal. Hyaluronic acid increases skin’s natural moisturizing factor (NMF) for additional hydration, while niacinamide enhances skin’s anti-inflammatory response. This powerful resurfacing and replenishing gel formulation is ideal for all skin types, including extremely dry, flaking skin. Safe to use after laser hair removal treatments, and can be used between these treatments to encourage follicular exfoliation.

BENEFITS

- Resurfaces rough body zones
- Provides simultaneous hydration and exfoliation
- Significantly improves radiance and softness
- Tested safe for use with laser hair removal procedures

NECK, CHEST & HAND REPAIR

Specifically designed for neglected body areas frequently exposed to the sun, Neck, Chest & Hand Repair delivers dual brightening and restoration action. Hydroxyphenoxy propionic acid helps remove surface pigmentation and inhibits unwanted pigmentation, while sodium tetrahydrojasmonate and vigna aconitifolia seed extract promote cellular renewal and support skin's structure to alleviate crepiness. Proven safe after laser treatments and can be used to help maintain laser results long-term.

BENEFITS

- Brightens and evens skin tone on areas with accumulated damage
- Fades age spots
- Redensifies skin to minimize crepiness
- Tested safe for use with laser rejuvenation procedures
